Movies of Antarctica

I'm colder now I'm standing still

About the day you're

Parade would stay

Watch, watch them smile

Trading touch for time

The camera catches all

It's over now

Faded prints and sample times

Novas thrashing in your eyes

Faded prints and sample times

Novas thrashing in your eyes

Time won't always fall for you

Your lips will crack they always do

Watch, watch them smile

A master crafted love affair

Your faces dry from truth or dare

Watch them watch them smile

Trading touch for time

the camera catches all

It's over now

Faded prints and sample times

Novas thrashing in your eyes

Faded prints and sample times
