

Stars, The Woods

That day we walked a little deeper
Breathless and too alive to sleep
You always said I was a dreamer
But now I know who's dreaming deep

Take me to the woods to show me something
but I turn my face away
Touched me in the shade
but then it got dark
let's save it for another day

Oh, it's a sea of leaves
If you lose something
you can't find it again
It drops to the bottom

That day we walked a little deeper
Breathless lost and too alive to stop
I always knew you'd be the one to show me
A grove to lie in and cry into the tree tops

Take me to the woods to show me something
but I turn my face away
Touched me in the shade
but then it got dark
let's save it for another day

Oh, it's a sea of leaves
If you lose something
you can't find it again
It drops to the bottom
It was my scarf
I'll never get it again
The best scarf I ever owned
The most beautiful color blue
It dropped
you know it fell out of my hand
Hello?
