

# Starsailor, Way Back Home

Be still my child  
We'll overcome  
The evil mind  
behind the bomb

So lift your hearts  
Open your minds  
And leave no room  
For words unkind

Be still my friends  
We'll overcome  
The evil mind  
behind that bomb

Don't waste your words  
I've already grown  
I'm gonna find my way back home  
Don't waste your words  
I've already grown  
I'm gonna find my way back home

Be still my friends  
We'll overcome  
The evil mind  
behind that bomb

Don't waste your words  
I've already grown  
I'm gonna find my way back home  
Don't waste your words  
I've already grown  
I'm gonna find my way back home (repeats)
