

# Starsailor, White Light

There's a white light that carries me home  
Helps me focus when I am alone  
Keeps on teaching me how to be loved  
And to love  
And to love

Onwards to forever  
Our minds belong together

She's the good light that carries me on  
Helps me focus on where I've gone wrong  
Now you've reached me  
Its time to forgive and forget  
And forget

Onwards to forever  
Our minds belong together  
Onwards to forever  
Our minds belong together

Tonight, this land  
Belongs to me  
The shifting sands  
The shining seas

Onwards to forever  
Our minds belong together  
Onwards to forever  
Our minds belong together

Tonight, this land  
Belongs to me  
The shifting sands  
The shining seas

Won't you help my soul to grow?  
To heal, its all that I know
