

Starship, Set The Night To Music

Set the night to music
Set the night to music

Look at all the stars tonight, look at all the moonlight
Look at us we're all alone
Oh and it's just like a dream, some romantic fantasy
Darling come and hold, hold me close

We could be making love
And with the slightest touch
We could, set the night to music
We could set the night to music
We could do what we want to do
It'll only take me and you, to
Set the night to music

Find a rhythm all our own, melt into it nice and slow
Love ourselves away from here
Your heart beating next to mine, perfect love in perfect time
Watch the world disappear

This moment is ours to take (This moment is ours)
And with the love we make
We could set the night to music
We could set the night to music
We could do what we want to do
It'll only take me and you, to
Set the night to music

Oh, oh, oh, oh, oh, oh, yeah
Oh, oh, oh, oh, oh, oh, yeah
This moment is ours to take (This moment is ours)
And with the love we make
We could set the night to music
We could set the night to music
We could do what we want to do
It'll only take me and you,

To set the night, set the night
Set the night to music
Set the night to music
We could set the night to music
We could set the night to music
We could set the night to music
Set the night, set the night, set the night, set the night...
