

# Starship, Set The Night To Music

Set the night to music  
Set the night to music

Look at all the stars tonight, look at all the moonlight  
Look at us we're all alone  
Oh and it's just like a dream, some romantic fantasy  
Darling come and hold, hold me close

We could be making love  
And with the slightest touch  
We could, set the night to music  
We could set the night to music  
We could do what we want to do  
It'll only take me and you, to  
Set the night to music

Find a rhythm all our own, melt into it nice and slow  
Love ourselves away from here  
Your heart beating next to mine, perfect love in perfect time  
Watch the world disappear

This moment is ours to take (This moment is ours)  
And with the love we make  
We could set the night to music  
We could set the night to music  
We could do what we want to do  
It'll only take me and you, to  
Set the night to music

Oh, oh, oh, oh, oh, oh, yeah  
Oh, oh, oh, oh, oh, oh, yeah  
This moment is ours to take (This moment is ours)  
And with the love we make  
We could set the night to music  
We could set the night to music  
We could do what we want to do  
It'll only take me and you,

To set the night, set the night  
Set the night to music  
Set the night to music  
We could set the night to music  
We could set the night to music  
We could set the night to music  
Set the night, set the night, set the night, set the night...
