

Starsplash, Rainbow In The Sky

I wanna see the rainbow high in the sky
I wanna see you and me on a bird flying away
Then I hope to see your smile
Every night and day

I wanna see the rainbow high in the sky
I wanna see you and me on a bird flying away
Then I hope to see your smile
Every night and day

Rainbow high in the sky
You and me on a bird flying away
Hope to see your smile
Every night and day

I wanna make love to you
Lead you to tomorrow
I wanna feel the sunshine after rain
We can reach out for the sky
No more pain and no more sorrow
For you I am the one that I could never be, never be

I wanna see the rainbow high in the sky
I wanna see you and me on a bird flying away
Then I hope to see your smile
Every night and day

I wanna see the rainbow high in the sky
I wanna see you and me on a bird flying away
Then I hope to see your smile
Every night and day
