

Starstylers, Keep On Moving 2006

Your body, your soul
Take the rhythm
Take control
The music got you into this room
So keep on moving, you're ready to go

Come, baby I want your body
Come on right to the dancefloor
I wanna swing the day off
And everybody's moving
So come on keep on grooving
So if you want to party come on and move your body
Come on and move your body
Your body and soul
So you can hear the DJ
He takes you in control
So step into this beat now
The beat that makes you move
The movement gives you power
The power to the groove

Come, baby I want your body
Come on right to the dancefloor
I wanna swing the day off
And everybody's moving
So come on keep on grooving
So if you want to party come on and move your body
