

# State Radio, Heady Riser

Runnin them all away (8x)

And when they stop  
you see the hand thay carries  
Brought on by what they refuse to believe  
And when they stop  
formidable adversary  
Their conscience foraged to their greed

By virtue of the definition of the heady riser  
He will move to his position of power  
To put things he has not seen  
In a position to his dreams  
He will not call till he know them true

And they come for the leaders but we say we never lead  
they come for the believers but we say we never believe  
they come for the healers but we say we never touch no hand  
And theyll come for us theyll be no one left to stand

Dont need no heady riser  
Dont need no heady riser
