## Static X, My Damnation

Time to take control (I control this)

It's harder than you know (got to change this)

Feel the muscle twithc (it's electric)

When you let it go

Feeling primitive (in my dark room)

Pounding in my head (creeping silence)

They will never know (all the secrets)

Better left unsaid

Always the same and

I didn't know you were

Taking what's mine I

Can see it show through

Waiting to break me

'Cause everyday it's

My damnation

Take another step (look around me)

All that I have left (taken from me)

Things I could have been (are forgotten)

haunting me again

Set in my own ways (never changing)

Make it through the day (rearranging)

Nothing more to lose (I can tell there's)

Nothing more to say

Always the same and

I didn't know you were

Taking what's mine I

Can see it show through

Waiting to break me

'Cause everyday it's

My damnation

Always to blame you

You crucified me

Leave it behind I

Can't take this hating

I'll make it go away

And everyday it's

My damnation

Go ahead

You throw the dirt

You tried

To make it hurt me

Everything, everything

Everything breaking me

Always the same

Always to blame

Always the same

Over and over it's my damnation
