

Status Quo, I Saw The Light

(Rossi/Young)

You made me love you, now I can't say goodbye
You're way above me, but I'll never know why
When I turn left and then you turn right
And you say you're right, and you're wrong
I know you're wrong

Oh, I saw the light in you
There wasn't much that I could do
Oh, I saw the light in you
I saw the light

You made me like you, and now like you I am
I try to stay me, but I don't know if I can
Oh, when I say it's black and you say it's white
And I say it's black and you're wrong
I know you're wrong

'Cos I saw the light in you
There wasn't much that I could do
Oh, I saw the light in you
I saw the light

Standing on the platform watching all the trains go past
Keep on trying to catch one but you know they're much too fast
I never seem to make it but I know the reason why
I need to, need to, need to, need to get away

You made me love you, now I can't say goodbye
You're way above me but I'll never know why
Oh, when I say it's black and you say it's white
And I say it's right and you're wrong
I know you're wrong

Oh, I saw the light in you
There wasn't much that I could do
Oh, I saw the light in you
I saw the light
Oh, I saw the light with you
There wasn't much that I could do
Oh, I saw the light in you
I saw the light
Oh, I saw the light in you...
