

Status Quo, I Wonder Why

Take time and trouble, but only to find
I wasted my time over you
It isn't the first time, it won't be my last
Could be the best time, don't take it so fast

I wonder if you're feelin' too
The way I've been feelin' for you

Stand at my window, the sun's coming up
Still dream about you, but that's not enough

I wonder why, it ain't fair
I wonder why, it ain't fair

Sitting alone at the end of the day
Stuck here surrounded by hills
Can't find an opening door any more
Though I try

Thank you, my friend, from beginning to end
It sure is about overdue
Hasn't it changed? Oh, so better arranged
I call it a blessing, no messing around

I wonder if you're feelin' too
The way I've been feelin' for you

Tell me the best way and I'll take me there
It sure is about time, I don't think it's fair

I wonder why, it ain't fair
I wonder why, it ain't fair

Sitting alone at the end of the day
Stuck here surrounded by hills
Can't find an opening door any more
Though I try

Take time and trouble, but only to find
I wasted my time over you
Hasn't it changed? Oh, so better arranged
I call it a blessing, no messing around

I wonder why, it ain't fair
I wonder why, it ain't fair
I wonder why, it ain't fair
I wonder why, it ain't fair
