

Status Quo, Jealousy

(Rossi/Frost)

Just jealousy, my jealousy
Is what you see doing me
Jealous of me, such jealousy
It shouldn't be - leave me alone

Time is running out, out runs the time
I waste it on my own
But don't think I'm alone
Oh no, not again, I won't reply
I can't stay on the phone
I'll see you back at home
I really did think that problem was solved
But it is not

Just jealousy, my jealousy
Is what you see doing me
Jealous of me, such jealousy
It shouldn't be - leave me alone

I've got another one, listen to me
And don't get all hung on
To things I have done wrong
Oh no, not again, I won't reply
It's only how I feel
It sometimes seems unreal
But everyone gets there once in a while
Are you wishing?

Just jealousy, my jealousy
Is what you see doing me
Jealous of me, such jealousy
It shouldn't be - leave me alone
Just jealousy, my jealousy
Is what you see doing me
Jealous of me, such jealousy
It shouldn't be - leave me alone
