

# Status Quo, That's A Fact

(Rossi/Young)

Sitting in a cornfield looking at a cob  
Thinking of a long line waiting for a job  
And I'm alone and that's a fact  
I'm alone and that's a fact

Sitting in a full car someone at the wheel  
Going to a new stop, I wonder if it's real  
And I'm alone and that's a fact  
And I'm alone and that's a fact

I need to maybe talk to you  
Said I need to, and said I need you  
I need to, I need to be with you  
I said I need to, I gotta see you

Sitting at a new stop, didn't get the job  
Couldn't find a long line, took another drop  
And I'm alone and that's a fact  
So I'm alone and that's a fact  
And I'm alone, and I'm alone

Sitting at a new stop didn't get the job  
Couldn't find a long line, took another drop  
And I'm alone and that's a fact  
So I'm alone and that's a fact  
And I'm alone and that's a fact  
That's a fact, that's a fact
