

Status Quo, Time To Fly

And so we see the reasons why
There's so very little time to fly
Find a garden that's green all year
And you may not have to hear
The sound the city's calling, just around the corner
The sound the city's calling

If you see and if you know
And if you've got a place to go
Find your friends and take them along
And help our side to sing this song
Of love for everyone
Love for everyone

If you see and if you know
And if you've got a place to go
Find your friends and take them along
And help our side to sing a song
Of love for everyone
Love for everyone

And so we see the reasons why
There's so very little time to fly
Find a garden that's green all year
And you may not have to hear
The sound the city's calling, just around the corner
The sound the city's calling
