

Steadman, Carried

Thinking sinking
Waves through your mind
The stars will not shine
'Til you're ready

Hold that pose
Don't let it go
You're not a lost soul
We all like to be
Carried
Drifting lifting
Days of our lives
Throw your eyes to the sky
You feel lucky

Hold that pose
Don't let it go
You're not a lost soul
We all like to be
Carried

No matter where we all come from
We all like to be carried X2
Carried

Hold that pose
Don't let it go
You're not a lost soul
We all like to be
Carried

No matter where we all come from
We all like to be carried X2
Carried

'Hold that pose don't let it go'
We all like to be carried
'Hold that pose don't let it go'
We all like to be carried
