

# Steadman, Cut Me Loose

Cut Me Loose  
Steadman  
Loser Friendly

You pulled the wool from my eyes  
Stopped me slipping under  
You hide the things that I have tired of  
You take the glare from my eyes  
Keep me undercover  
You take the weight  
And lift it right off

You take it all away  
(You take it all away)  
You take it all away  
You take it all away  
(You take it all away)  
You take it all away  
You take it all away  
(You take it all away)  
You take it all away

I love you  
I love you

Things are looking up  
Things are getting better  
You gave me things I can rely on  
When it's dark, you switch the light on  
Make it better  
Make me feel like I'm on top

You take it all away  
(You take it all away)  
You take it all away  
You take it all away  
(You take it all away)  
You take it all away  
You take it all away  
(You take it all away)  
You take it all away

I love you  
I love you

You came, you came and cut me loose, yeah  
You caught me with the blues, yeah  
You take it all away yeah, yeah

You take it all away, yeah, yeah  
You take it all away, yeah, yeah  
You take it all away, yeah, yeah  
You take it all away

I love you...
