

Steadman, Good To Go

Yes alive but only just
I'm hanging just because
Refuse to turn to dust
Yes is what I need from you
I can't afford to lose
I'm waiting for my cue
So I begin to take it in
I'm sinking from the weight it brings
Do give in to what you want
You've never been so good to go on

Wait until dark
Then you can start
To light up my soul
Living a dream
Starting a scene
On with the show

Wait until dark
Then you can start
To light up my soul
'Tell them we're good to go'

Yes is what I need from you
I can't afford to lose
I'm waiting for my cue
Yes alive but only just
I'm hanging just because
Refuse to turn to dust

So I begin to take it in
I'm sinking from the weight it brings
So do give in to what you want
You've never been so good to go on

Wait until dark
Then you can start
To light up my soul
'Tell them we're good to go'
Living a dream
Starting a scene
On with the show
'Tell them we're good to go'
Wait until dark
Then you can start
To light up my soul
'Tell them we're good to go'
Tell them we're good to go
'Tell them we're good to go'

(Instrumental)
So good to go
On with the show
Oh, places I don't know
I'm good to go
On with the show
My world will start to take shape

Wait until dark
Then you can start
To light up my soul
'Tell them we're good to go'
Living a dream
Starting a scene

On with the show
'Tell them we're good to go'

Wait until dark
Then you can start
To light up my soul
'Tell them we're good to go'
Living a dream
Starting a scene
On with the show
'Tell them we're good to go'
Tell Them we're good to go
