

Steadman, Live It Up

The closer you get
to blowing apart again
Oh no you're so low

The further you get
from giving your everything
Heave ho let go to know
You've got a diamond in your pocket
but it used to be coal

Slow down, you're running to find a way out
Wait up, you're missing what life is about
Yeah, I found out
Don't blow it when you've had enough
Yeah, I found out
Just carry on and live it up

The harder it gets
to make a new start again
Oh no from zero
The better it gets
to finding yourself my friend
heave ho there you go on your own
You've got some silver in your pocket
but it used to be stone

Slow down, you're running to find a way out
Wait up, you're missing what life is about
Yeah, I found out
Don't blow it when you have enough
Yeah, I found out
Just carry on and live it up

Slow down, you're running to find a way out
Wait up, you're missing what life is about
Yeah, I found out
Don't blow it when you've had enough
Yeah, I found out
Just carry on and live it up
