

# Steadman, Oceans Of You

I've got to show my face to you all  
And tell you it never happened like I had planned  
Give me my prize, I realized  
That you can't make a difference if that difference won't give you the time

But it's all I've got  
My innocence in oceans of you  
But it's all I've got  
My innocence in oceans of you

Are you worth dying for? Well, I don't know  
What's the final score? Well, I don't know  
So many different doors  
I've got to find the right way out

I'm no good, misunderstood  
I've had it up to here and then some  
You can fail to live your dream  
If somebody decides that you cannot

But it's all I've got  
My innocence in oceans of you  
But it's all I've got  
My innocence in oceans of you

Are you worth dying for? Well, I don't know  
What's the final score? Well, I don't know  
So many different doors  
I've got to find the right way out

Are you worth dying for? Well, I don't know  
What's the final score? Well, I don't know  
So many different doors  
I've got find the right way...
