

Steadman, Revive

All I have to do
Is make life better
I shout
But no one is around
Slowly make a move
Away from knowing
Silence has a sweeter sound
What's better for me
Might not be better for you
What can you do?
What can you do?

Why won't you come, my friend
Revive
Bring it on, my friend
Revive

What are we to do?
It takes forever
And yet it takes no time at all
Let me introduce
A view of heaven
Before we walk into a fall
What's better for me
Might not be better for you
What can you do?
What can you do?

Why won't you go, my friend
Revive
Bring it on, my friend
Revive
Let it come, my friend
Revive

Let it come, my friend
Revive
Bring it on, my friend
Revive
Let it come, my friend
Revive

Let it come, my friend
Let it come, my friend
Let it come, my friend
Revive
(repeat 3x)
