

Steadman, Saviour

You chose well
You chose not to think at all
Life was swell
Just like on that TV show
Happier now
Lost yourself in something else
With no doubts
Nothing left to cry about

Come do us a favour
Got sucked in and led astray boy
Who's coming to save ya?
Why suffer this much today ... oh

I feel like a saviour
Pretending I can free
someone like you

If you feel ill?
Then get up off that spinning wheel
Drink again
Blocking out that thing called pain
Happier now
Lost yourself in something else
With no doubts
Nothing left to shout about

Come do us a favour
Got sucked in and bled away boy
Who's coming to save ya?
Why suffer this much today ... oh

I feel like a saviour
Pretending I can free
someone like you
