

# Steel Attack, Guardians

Into the dark I search for the way  
I can't return one day  
Give it to me I need it now  
Mighty guardians of hope

I follow the light into the dark  
The path seems so unreal to me  
I know I will find it soon

I had a vision I am the one  
I need deliverance  
Come set me free so I can fall  
Into the hands of faith

I follow the light into the dark  
The path seems so unreal to me  
I know I will find it soon

I'm waiting  
I'm searching for eternal life

When I come to the land of twilight  
I will search for the one  
The one who fires from the sky  
The guardians of hope

I'm on a mission come take my hand  
Save me now mighty one  
Now I can see the land of twilight  
Waiting for me to come

I follow the light into the dark  
The path seems so unreal to me  
I know I will find it soon  
Into a world that already shines  
This seems so unreal to me  
I know I will find it soon

When I come to the land of twilight  
I will search for the one  
The one who fires from the sky  
The guardians of hope

(Solo)

I'm waiting  
I'm searching  
I know I will find it soon  
I'm waiting  
I know I will find it

When I come to land of twilight  
I will search for the one  
The one who fires from the sky  
The guardians of hope
