

# Steel Attack, Nightmare

You can see me all alone  
Lost in the shadows lost in the night  
Climbing out of a crypt  
The only rule i ever need  
It's my motivation to survive

Walking around with death  
Mysterious force in my eyes  
Walking around with death  
Mysterious force in my eyes

It will be  
It will be your nightmare  
You will fear now  
For your life

Now you're in my secret world  
This is your life it never ends  
In the land of the dreams  
They will keep you alive in everlasting time  
Chained and tied to my soul

Walking around with death...

It will be...

Do you ever wonder if this is real  
Or do you think you are just trapped in a nightmare  
Ha ha ha ha

Walking around with death...

It will be...
