Steel Attack, Nightmare

You can see me all alone Lost in the shadows lost in the night Climbimg out of a crypt The only rule i ever need It's my motivation to survive

Walking around with death Mysterious force in my eyes Walking around with death Mysterious force in my eyes

It will be It will be your nightmare You will fear now For your life

Now you're in my secret world
This is your life it never ends
In the land of the dreams
They will keep you alive in everlasting time
Chained and tied to my soul

Walking around with death...

It will be...

Do you ever wonder if this is real Or do you think you are just trapped in a nightmare Ha ha ha

Walking around with death...

It will be...
