Steel Attack, Reality Unknown

I hear voices in my head as i lay my soul to rest This can not be real In the future you'll be there Come with me and you'll be free This can not be real

I am alone I must be strong

Come take me Come touch me Come take me higher than the sky

I can not change my life i'm at the bottom of this world Come take me away Is this the way it all should be So this is reality Now i can see

I am alone I must be strong

Come take me...

Higher than the sky This will be the one

I am alone I must be strong

Come take me...
