

Steel Dragon, Livin' The Life (I Was Born To Live)

Got a ticket for a ride
Never stop until I'm satisfied
It's a party on the sun
Feel the heat comin' from my gun

Flyin' high on Rock n Roll
Like a fever burnin' in my soul

Livin' the life I was born to live
Givin' it all I've got to give
Lovin' every minute of what I do
Come on, come on, come on, you can live it too

I like it hard I like it fast
Nobody told me it was meant to last
I get my lovin' when I can
Spread the word all over this land

I wanna rock it all night and day
So don't 'cha tell me there's another way

Livin' the life I was born to live
Givin' it all I've got to give
You're invited if you wanna come
Better get ready to have some fun

(guitar solo)

Livin' the life I was born to live
Givin' it all I've got to give
Livin' the life I was born to live
Givin' it all I've got to give
Lovin' every minute of what I do
Come on, come on, come on, you can live it TOO!

I wanna live the life
