

Steel Pulse, Shining

Night time is growing old
New breezes kinda cool
So raise up raise up
This could be your time yeah yeah yeah
Raise up you head
Raise up and live
A new day again right on time
So open your eyes
Lift up your head
Things to be said in this time
So summer is here
And flowers in full bloom
The sun is in the air
Get up get out
Try and find out
What life what life what life
Has in store for you

CHORUS

Sunshine is shining
Sunshine is shining
Sunshine is shining
Sunshine is shining
The sun is the light
The moon and the stars
That guides in the day and loves in the night
So open your eyes
Lift up your head
Thing to be seen in this time (hey)

CHORUS

Raise up your head
Raise up and live
A new day again right on time
So open your eyes
Lift up your head
Things to be said in this time
So summer is here
And flowers in full bloom
The sun is in the air
Get up get out
Try and find out
What life what life what life
Has in store for you

CHORUS

Sunshine is shining
Sunshine is shining
Sunshine is shining
Sunshine is shining
