Steel Pulse, Shining

Night time is growing old

New breezes kinda cool

So raise up raise up

This could be your time yeah yeah yeah

Raise up you head

Raise up and live

A new day again right on time

So open your eyes

Lift up your head

Things to be said in this time

So summer is here

And flowers in full bloom

The sun is in the air

Get up get out

Try and find out

What life what life what life

Has in store for you

CHORUS

Sunshine is shining

Sunshine is shining

Sunshine is shining

Sunshine is shining

The sun is the light

The moon and the stars

That guides in the day and loves in the night

So open your eyes

Lift up your head

Thing to be seen in this time (hey)

CHORUS

Raise up your head

Raise up and live

A new day again right on time

So open your eyes

Lift up your head

Things to be said in this time

So summer is here

And flowers in full bloom

The sun is in the air

Get up get out

Try and find out

What life what life what life

Has in store for you

CHORUS

Sunshine is shining

Sunshine is shining

Sunshine is shining

Sunshine is shining

The sun is the light

The moon and the stars

That guides in the day and loves in the night

So open your eyes

Lift up your head

Things to be seen in this time (hey)

CHORUS

Raise up your head

Raise up and live

A new day again right on time

So open your eyes

Lift up your head

Things to be seen in this time

For summer is here

And flowers in full bloom

The sun is in the air

Get up get out

Try and find out What life what life what life Has in store for you CHORUS
