

Steelheart, Gimme Gimme

People say she's from another time, got a neon heart, got an X-ray mind
Oh, a spiritual attraction
Two black eyes painted on her face, just one look'll lay your soul to waste
Oh, a ritual reaction
Let my dreams run away, tell me baby, tell me baby that you're gonna stay
Touch my body, crush my soul, love
Sweet Electric Love Child, Sweet Electric Love Child
Little girl wanna stay so high, reach down and touch the sky
Oh sunshine again
Aw my sugar gonna shoot the moon
Dancin' in an old cartoon on the windowpane
Trip the lights, drift away
Tell me baby, tell me tell me what you wanna say - what d'you wanna say?
Touch my body, crush my soul, oh baby, I'm in love love love love...
Sweet Electric Love Child, Sweet Electric Love Child
(Solo)
Sweet Electric Love Child, Sweet Electric Love Child
Oh honey, child, oh sing it, huh
Sing it baby, oh child, yeah baby, oh, oh my my my my...
