

Stefan Andersson, Dear God

Dear god
did you throw away the toys
you played with as a boy
because you got to old

Dear god
you're not easy to believe in
not easy to deny
I'm caught up in between.

Oh lord,
why keep the truth in chains?
it's gettin' to my brain
though you're the one insaine.

Dear god
forgive the little man
who doesn't understand
such a great masterplan

(Chorus)
I thought I heard you say
situation is under control
just sit back, relax
and let me take you home
The situation is under control
I've been trained for years
for situations like this

Dear god
where the hell where you today
I shouted out your name
a friend just passed away

Dear god
it might mean nothing to you
but everything to me
this is my life you see

Oh lord
are you punishing today
things I might have said
or done yesterday

Dear god
forgive the little man
who doesn't understand
such a great masterplan

(Chorus)
I thought I heard you say
situation is under control
just sit back, relax
and let me take you home
The situation is under control
I've been trained for years
for situations like this

Shalalalala..

(Chorus)
