## Stefan Andersson, Dear God

Dear god did you throw away the toys you played with as a boy because you got to old

Dear god you're not easy to believe in not easy to deny I'm caught up in between.

Oh lord, why keep the truth in chains? it's gettin' to my brain though you're the one insaine.

Dear god forgive the little man who doesn't understand such a great masterplan

(Chorus) I thought I heard you say situation is under control just sit back, relax and let me take you home The situation is under control I've been trained for years for situations like this

Dear god where the hell where you today I shouted out your name a friend just passed away

Dear god it might mean nothing to you but everything to me this is my life you see

Oh lord are you punishing today things I might have said or done yesterday

Dear god forgive the little man who doesn't understand such a great masterplan

(Chorus) I thought I heard you say situation is under control just sit back, relax and let me take you home The situation is under control I've been trained for years for situations like this

Shalalalala..

(Chorus)
