

# Stefan Andersson, Make Yourself Happy

You said you want to be happy  
That no one understands di  
The fact you've been faking  
the smiles you've been making

I said make (make), you're (you're), self (self), happy  
I said make (make), you're (you're), self (self), happy

You said that you've been waited  
for mister right to come riding  
I tell you he was looking  
for you but you was sleeping

I said wake (wake), you're (you're), self (self), happy  
I said wake (wake), you're (you're), self (self), happy

No doctor  
no doctor can make you heel  
No doctor  
no doctor can make you feel  
No doctor  
can do that for you

You said you want to be happy  
You said that you are wealthy  
You said that you've been tryin'  
by helping others from crying

I said make (make), you're (you're), self (self), happy  
I said make (make), you're (you're), self (self), happy

No doctor  
no doctor can make you heel  
No doctor  
no doctor can make you feel  
No doctor  
can do that for you

Yeah  
No doctor  
no doctor can make you heel  
No doctor  
no doctor can make you feel  
No doctor  
no doctor can make you real  
No doctor  
can do that for you
