

# Stefanie Heinzmann, Don't Call This Love

Crying the rain  
Nothing to say  
Lately I wonder  
Who you are today  
I know all about you  
But I don't understand  
Why you won't see me  
Why things have changed

Oh baby something is going on  
God knows I know

Cus you can't keep nothing from me  
Cus I know what I've seen now  
You can try your best to deceive  
But I know where you've been now  
Ooh, our time has come  
Don't call this love

I might be no good  
In your eyes only  
One day you'll see that  
I was good for you honey  
You need to grow up  
Get your life together  
We can't go on now  
Doing this to each other

Oh baby something is going on  
God knows you know

Cus you can't keep nothing from me  
Cus I know what I've seen now  
You can try your best to deceive  
But I know where you've been now  
Ooh, our time has come  
Don't call this love...

Cus you can't keep nothing from me  
Cus I know what I've seen now  
You can try your best to deceive  
But I know where you've been now  
Ooh, our time has come  
Don't call this love

Cus you can't keep nothing from me  
Cus I know what I've seen now  
You can try your best to deceive  
But I know where you've been now

Don't call this love...
