

Stefano Terrazzino, Another minute

Youve got all the things Im looking for
Times up watching from across the floor
Just take a step and save tonight
Let go, theres something I wanna say
You know that I really wanna play
Taking the spot under the lights
Everybodys looking when we do it like this
Everybodys tripping when we do it like that
Try to give it up
Got to give it up girl
Another minute
You and me in it
We only got tonight so take it to the limit
Its not over, till its over
Another minute
You and me in it
Just grab your jacket let the story be continued
Its not over, till its over
So close baby I can hear you breathe
Go slow youre the one, come make me complete
Wanna stay in this moment all my life
Everybodys looking when we do it like this
Everybodys tripping when we do it like that
Try to give it up
Got to give it up girl
Another minute
You and me in it
We only got tonight so take it to the limit
Its not over, till its over
Another minute
You and me in it
Just grab your jacket let the story be continued
Its not over, till its over
Dont drop if you wanna rock
Dont go if you wanna know
Dont hide if you wanna fly, yeah
So prove that you wanna move
Now show if you wanna explode
Just stay if you wanna play
Everybodys looking when we do it like this
