

Stefy, Back Tonight

I remember when I met you
Couldn't get you to talk
I thought it was real
Now you're breaking my heart

I was hoping that you'd fallen for me
Right from the start
How does it feel
Now that we're breaking apart?

And now I know I'm feeling

Damn down, I miss my baby
I want to be your lady
I want you back tonight
I want you back tonight

I know I'm acting crazy
Don't know if you can save me
I want you back tonight
I want you back tonight

I saw my picture in the mirror
When I picked up the phone
How does it feel
Now you're alone?

I shouldn't care to feel embarrassed
I should have known
It wasn't real
I think it's time to move on

And now I know I'm feeling

Damn down, I miss my baby
I want to be your lady
I want you back tonight
I want you back tonight

I know I'm acting crazy
Don't know if you can save me
I want you back tonight
I want you back tonight

I thought you told me it was long
I never thought that you would go

Sometimes I feel like giving up
Now I'd say

Damn down, I miss my baby
I want to be your lady
I want you back tonight
I want you back tonight

I know I'm acting crazy
Don't know if you can save me
I want you back tonight
I want you back tonight

I want you back tonight

I want you back tonight

I want you back tonight
