

Stella Soleil, Look My Way

I went out with this boy
His eyes weren't even blue
Don't remember a thing
That he said
He doesn't measure up to (yeah)
But now I pass my time
I watch them drinking that wine
And I'm thinking how can I find
A way out
And I should be with you
What am I doing it
Its not that I do not care
I look for you everywhere

Oh Look my way
Just one more time
I might surprise you darling
Don't you know
I had sometime
To work it out (yeah)
And turn your lights back on
The nights have been so long
I want you to
Look my way
Just one more time
You might be surprised (yeah)

How could I kiss your eyes
I know you think
I'm not your kind
But if you give me the time
Maybe then I could
Change your mind (yeah)
Cause I know its right
I should be with you tonight
How'd I get through to you
Oh why are you so confused

Oh Look my way
Just one more time
I might surprise you darling
Don't you know
I had sometime
To work it out (yeah)
And turn your lights back on
The nights have been so long
I want you to
Look my way
Just one more time
You might be surprised (yeah)

I'm writing you a song
Its my love letter
Do you know its for you
I hope you get it

Oh Look my way
Just one more time
I might surprise you darling
Don't you know
I had sometime
To work it out(yeah)
And turn your lights back on
The nights have been so long

I want you to
Look my way
Just one more time
You might be surprised (yeah)
