

Stellar, Death Note (feat. Autograf)

Baby, you're my Death Note
I don't wanna let go
Cuz you're like a hole burned into my brain
Cuz baby you are psycho
I think it's all right though
Cuz I love you more when you drive me insane

You shot my heart with a smoking gun
Then you laughed and told me that, you did it all for fun
Pathological lies, got that look in your eyes
That drives me crazy, but I'm god damn terrified

Circling conversations and accusations
Are all we are worried about
Why can't we have some patience? Communication
Lets figure out

Baby, you're my Death Note
I don't wanna let go
Cuz you're like a hole burned into my brain
Cuz baby you are psycho
I think it's all right though
Cuz I love you more when you drive me insane
You're giving me a heart attack
Run it back, why gotta talk that?
This another one of your games?
Cuz baby, you're my Death Note
I don't wanna let go
Cuz you're like a hole burned into my brain

Burned In the back of my mind
You set off a fire, and now it's setting my world ablaze
You're always way out of line
But most of the time you know that you're gonna get your way

Circling conversations and accusations
Are all we are worried about
Why can't we have some patience? Communication
Lets figure out

Baby, you're my Death Note
I don't wanna let go
Cuz you're like a hole burned into my brain
Cuz baby you are psycho
I think it's all right though
Cuz I love you more when you drive me insane
You're giving me a heart attack
Run it back, why gotta talk that?
This another one of your games?
Cuz baby, you're my Death Note
I don't wanna let go
Cuz you're like a hole burned into my brain

Oooh, why do I feel like
You might just tear me in two
Oooh, why do I feel like
You've left me tattered and bruised

Baby, you're my Death Note
I don't wanna let go
Cuz you're like a hole burned into my brain
Cuz baby you are psycho
I think it's all right though
Cuz I love you more when you drive me insane

You're giving me a heart attack
Run it back, why gotta talk that?
This another one of your games?
Cuz baby, you're my Death Note
I don't wanna let go
Cuz you're like a hole burned into my brain
