

Stellar Kart, Shine Like The Stars

Is it real
What you feel
Do you burn inside
Is it true
Within you
Is your spirit alive

Tell me why do you fear
And try to disappear
If you've got nothing to hide

Shine like the stars
Wherever you are
Wherever you go
Be heavenly glow
Shine like the stars

I hear you say
You know the way
Still you live like you do
But compromise
Only satisfies
The dying part of you

Tell me how do you go
On hiding when you know
The world is waiting for you

Don't fall down
Don't burn out
