Stellar Kart, Shine Like The Stars

s it real What you feel Do you burn inside Is it true Within you Is your spirit alive

Tell me why do you fear And try to disappear If you've got nothing to hide

Shine like the stars Wherever you are Wherever you go Be heavenly glow Shine like the stars

I hear you say You know the way Still you live like you do But compromise Only satisfies The dying part of you

Tell me hwy do you go On hiding when you know The world is waiting for you

Don't fall down Don't burn out
