

# Stellar Kart, Student Driver

Two hands on the wheel of my fate. Sweat running down my forehead. Cars passing me like we're race. I don't know what danger lies ahead. Cause I'm just a student driver. And I need your help to guide me. Cause on my own I'm nothing. Looks like the road ahead. Might be rough to atake. Oh no I've spun out of control. Good thing my passenger has a brake. And he knows exactly where to go. I'm just a student driver. And I need your help to guide me. Cause on my own I'm nothing. Now my right wheel is wobbling off. And my stereo is blown. But because I'm a student driver. This car is not my own. Cause I'm just a student driver. And I need your help to guide me. Cause on my own I'm nothing. Cause I'm just a student driver. And I need your help to guide me. Cause on my own I'm nothing. Cause I'm just a student driver. And I need your help to guide me. Cause on my own I'm nothing.
