

Stellar, Masquerade

I don't wanna rock the boat
Feel like I'm about to drown
Walking an empty road
I'm the only one around

Every day I'm wide awake
Counting my mistakes duplicating
Honestly, I'm afraid
To lose

You think you know me
What's right and what's wrong
When I feel lonely

I like to hide away
Da da da da
Behind my masquerade
Da da da da
I wish that I could change
You wouldn't know I'm insane
Behind my masquerade

I've been on a walk through hell
I don't know who lit the fire
Feelin' like an empty shell
I think that I might be dying

Every day I'm wide awake
Counting my mistakes duplicating
Honestly, I'm afraid
To lose

You think you know me
What's right and what's wrong
When I feel lonely

I like to hide away
Da da da da
Behind my masquerade
Da da da da
I wish that I could change
You wouldn't know I'm insane
Behind my masquerade
