

Stellar*, Star

it's in the way you see the world
that causes conflict in this girl
so here we go
we're at it again
you flew by the starter flag
as i got to the end
but if you don't mind
the critic in me
we could lay the stage for this comedy

Chorus:

baby you're a star
you know that's what you are
baby you're a star
you know that's what you are
baby you're a star

it's in the way we make amends
that way i harden the way you bend
so here we are
never two of a kind
i could say my mind's made up
you say you don't mind
but if you can be sure
you're in it with me
you could take the lead in this comedy

Chorus

i know that shooting light
is just space junk from a satellite
there's beauty in debris
depending on who is watching with me
