

# Stellar\*, What You Do (Bastard)

I'm not a stone, I bleed just like you do  
I'm flesh and bone, I feel just like you do  
No part of me can be immune  
Would like to be but still I bruise  
Haven't got a lot to lose

Don't be afraid, take it like a man  
Please behave the same way if you can  
No bitter tongue will get to me  
And if it did I won't let you see  
Show the bastards what you mean

So close I can taste it  
I'm ready to please  
Too close now to fake it  
Pretending is sweet  
I'm down on my knees  
I'm dying to  
Show the bastards what you do  
Show the bastards what you do  
Show the bastards what you do  
Show the bastards what you do

So close I can taste it  
I'm ready to please  
Too close now to fake it  
Pretending is sweet  
I'm down on my knees  
I'm dying to  
Show the bastards what you do (x6)
