

Stellastarr*, Island Lost At Sea

I don't wanna stay
And she don't wanna leave
Pictures of our life
The island lost at sea

Travel here tonight
And count the stars with me
Breathing in the sky
Oh, the moonlight through the leaves

Now I don't see the ground
And she don't feel the breeze
Cause we were the problem with
Oh, the island lost at sea

What makes us
What makes us
What makes us wanna change this?
What makes us
What makes us
What makes us wanna change this?
