Outside, there's a spaceship  
Blocks the sun  
Forms a shadow hovering everything

Yesterday I had missed you  
But today, there's a girl who shows me everything

I said, ohhh, she was the moment  
I said, ohhh, she was the moment  
I said, ohhh, she was the moment  
I said, yeah, moongirl

Let's surf on the horizon  
To the moon, where the world will look much clearer to me

One day I'll be finished  
But today, there's a girl who shows me everything

I said, ohhh, she was the moment  
I said, ohhh, she was the moment  
I said, ohhh, she was the moment  
I said, yeah, moongirl
