

# Stephanie Dosen, This Joy

Send up the sun now  
The midnight darkness  
Is nearly through  
I'm one day older  
But this love is still as true  
And hey, it's gonna be taking me over  
This joy is gonna fill the inside out

After the hammer  
All around me little stars  
But I'll find the pattern  
The constellation is in my heart  
And hey, it's gonna be taking me over  
This joy, this joy is gonna fill the inside out

Let me stay here just to see you breathing  
Are you sleeping again?

You're in your house now  
And the wind is wild  
And the walls are thin  
Just stay where you are my dear, my dear  
I'll find a way in  
And hey, its gonna be taking me over  
This joy, this joy is gonna fill the inside out

Let me stay here just to see you breathing  
Are you sleeping again?
