

Stephen Curtis Chapman, The Walk

I got a grandpa Rudd

Well, he gave thirty years to the lumber yard

Lovin' his family and working hard

Got a faith like a solid rock

he's just doing the walk

I got a friend named Larry

Sends me letters from a foreign land

He moved there with his kids

and his pretty wife mary

to answer a holy call

He's just doin' the walk

Chorus:

Well you can run with the big dogs

you can fly like the eagles

you can jump through all the hoops

and climb the ladder to the top

But when it comes down

You know it all comes down to the walk

Now, there's a man I know

He said He'd come to show us the way

he died on a cross and rose from the grave

and proved he was more than talk

He taught us the walk

Yes, he did

And now I'm singin' my songs

Standin' up on a big bright stage

And I do my dance while the music plays

But when the music stops

am I doing the walk

To chorus(2x)

Do justly, Love mercy

Walk humbly with your God.
