

# Stephen Gately, Far From Love

It's been a while it seems so long  
I still remember when we were young  
Living our lives as one - always

You had to stay I had to go  
Leaving was hard but I hope you know  
You've been a part of me - always

Even though it's been so long  
My heart is telling me keep strong  
Cause I know I'll find you

I am far from my love  
Round the world  
But I never will forget  
So I wish on a star  
To be right back in your arms  
And I pray high above  
To be right back where you are

Now I'm back and I believe  
Everything's different now you'll see  
We'll be together now - always

Even though it's been so long  
My heart is telling me keep strong  
Cause I know I'll find you

I am far from my love  
Round the world  
But I never will forget  
So I wish on a star  
To be right back in your arms  
And I pray high above  
To be right back where you are

Sorry I have to leave again  
Never intended it to end  
Until we meet again - always

I am far from my love  
Round the world  
But I never will forget  
So I wish on a star  
To be right back in your arms  
And I pray high above  
But I never will forget  
So I wish on a star  
To be right back in your arms  
And I pray high above  
To be right back where you are
