

# Stephen Gately, Gotta Be Where You Are

Oh yeah  
My baby baby baby  
Oh yeah  
Whoa yeah yeah

It's Monday morning and I can't get out of bed  
Though I know that I gotta go  
I'd rather dream of you instead  
Replay your message  
So I can hear your voice  
I can't wait or hesitate  
You're leaving me no choice

I try and play it cool  
Keeps getting stronger  
I know you feel it too  
Don't you know baby?  
I'm crazy for you whoa

Chorus  
Monday, Tuesday, Wednesday, Thursday  
Only thinking of you (only thinking of you yeah)  
Friday, Saturday, Sunday  
Well you're all I wanna do  
Winter, summer, spring or fall  
I feel you all the year through  
I'll take a plane, I'll take a car  
Just wanna be, oughta be, gotta be were you are  
Oh yeah (yeah yeah yeah) were you are

It's Friday evening  
And I finally made it through  
Running every red light  
Just to get to you  
We'll take our time babe  
To see the morning light  
Mad fun (mad fun)  
Summer sun (summer sun)  
We're gonna do it right

I'm all about you babe  
And I know you're all about me  
24-7 I need you constantly  
Don't you know baby?  
That's the way it should be

Chorus

Ain't no lover like the one I've got  
We keep it real  
We keep it hot  
This kind of love could never be bought  
Ain't no reason we should ever part  
You've got my back  
You've got my heart  
You're the sun the moon and the stars

Oh yeah (oh yeah)  
Hey-e-yeah  
Oooh baby, baby  
Monday, Tuesday, Wednesday, Thursday  
Only thinking of you (only thinking of you yeah, yeah)  
Friday, Saturday, Sunday  
Now you're all I wanna do (all I wanna do my baby)

Winter, summer, spring or fall  
I feel you all the year through  
I'll take a plane I'll take a car (take a car)  
Just wanna be, Oughta be, gotta be were you are

Ain't no lover like the one I've got  
We keep it real  
We keep it hot  
Ain't no reason we should ever part  
You've got my back  
You've got my heart (you've got my heart)

We keep it real  
We keep it hot (we keep it real, we keep it hot)  
Ain't no reason we should ever part (oh no, oh no oh whoa)

Continues till fade
